House.

Some nice questions of interstate law are likely to arise in the matter of the extradition of John Young, the murderer of Gee Yom, now serving time for burglary in the Canon City, Colo., state prison.

Young, it will be remembered, has already been convicted, and there are those who insist that the only way for him to be brought out of the state is for him to be pardoned out of the prison. Others hold that the matter is entirely optional with the governor of Colorado and that the chief executive will be likely to grant the request inasmuch as the companion of Young, who guarded the door while Young fired the shot, has already been convicted and sentenced, and that during the trial Young was connected with the affair as truly and as positively as was Brown.

to the Western Terminal.

San Pedro, Cai., Jan, 10.—It is authoritatively stated that the San Pedro, Los Angeles & Salt Lake road, which is Senator W. A. Clark's property, will shortly begin work on the extensive improvements at the terminus of the road here. The present wharves of the company at Terminus Island will be extended 90 feet to the south, involving an expenditure of about \$30,000, and it is rumored that the company has plans for the erection here of a large freight and passenger depot at East San Pedro and a bath house and hotel at Terminal island, the whole to cost approximately \$100,000. No definite plans have been announced, and probably will not be until the next visit of Senator Clark to this place.

RUSHED FOR CARS.

Manufacturers Unable to Keep Up With Extraordinary Demand.

With Extraordinary Demand.

Railroads throughout the United States, including the local lines, are rushed. Both the freight and the passenger departments are feeling the effects of the heavy traffic demands. In many cases men are forced to put in many hours overtime, and all over the country, the roads which share in the era of prosperity are ordering new cars.

It is estimated that orders for cars amounting to over \$75,000,000 are on the books of the manufacturers. In nearly every case these are rush orders, and the demand for the cars has been created by the unexpected increase of business. Many of the roads like the Short Line anticipated this condition of affairs and got their orders in early, but the orders have been delayed. The demand for motive power is equally large, and in many cases the specifications call for January, February and March deliveries.

MALE HELP-WANTED

Catarrh is the most prevalent of all diseases. It affects young and old and is to be found wherever there are civilized people. Drs. Shores & Shores estimate that sixty per cent of the people of the United States suffer from Catarrh in some form.

DEFINITION—Catarrh is an inflammation of any of the mucous membranes of the body—such as the lining membrane of the Nose, Throat, Bronchial Tubes, Stomach, Bowels, Kidney and Bladder. Drs. Shores & Shores have made a specialty of curing Catarrh and Chronic Ailments for the past twenty years and their name is a household word wherever there are English speaking people. Their motto is a low fee, quick cure, mild, painless treatment.
